Have Our Songsters Gone?

The West Sonoma Mountaineer has missed the song birds and would like to know what has become of them. In its last issue it says:

"Just by way of comparison we would like a report from the esteemed Sonoma Expositor and Cloverdale Revielle about the almost entire absence of song birds since the terrible April 18th. Before the quake it was noted by everyone that the orchards, woods, and fields were fairly alive with robin-rebreasts, canaries, larks, thrushes, etc., but they seem all to have cleared out of the county, hardly a single one being now in evidence."

If any of our readers, who, being employed in the orchards and vineyards of this section, can furnish us with any information concerning the song birds, as to whether they have been as plentiful as usual, or if they left the valley after the disturbance of April 18th, we will gladly publish the facts.

Favorable Drying Weather

A good many of our fruit raisers were needlessly worried on account of the weather. The fact is that the fruit has been drying faster and better than it would in warm weather, as the shrinkage is not so great, and the sun does not consume away so much of the juice or sugar that the fruit contains as it otherwise would during warm weather.

Patsy's Mistake

"Patsy" of El Verano in his last write up made quite a mistake in regard to where Mr. Weaver's thoughts were, for he never lets his mind become so absorbed in other things that he does not know what horse he is shoeing. He shoes the best and most valuable horses in the valley as well as the poorest. He is strictly up to date and can put on the heaviest as well as the lightest plates.

"OLD TIMER."

Keep on Hustling

Let everyone keep hustling to improve the appearance of their streets and lots. Keep all kinds of rubbish off the streets and sidewalks, and see that your houses, fences, etc. are neatly painted. There is nothing that helps the looks of a town and induces newcomers to settle in it more than neatly painted houses and fences, neat and tidy streets and sidewalks, and fruit trees and shade trees in your lots.

Must you be told again to register?

PURE BLOOD IS VITAL

Not everyone realizes the vital necessity of keeping the blood pure at all times. Impure blood not only causes various derangements and inability to perform one's work well, but gives a ready welcome to all germs of disease with which it comes in contact. It is the rankest extravagance to allow the human blood to remain in an impure or impoverished condition. "Our Standard Remedy" is the safest, purest and best blood purifier on the market to-day. It is a new remedy, a purely vegetable preparation composed of roots, barks and herbs, and contains no calomel or other injurious or metallic drug. 204 doses for \$1, with a written guarantee that your money will be refunded if you are not cured of all troubles caused directly or indirectly by bad blood. You can purchase this wonderful new remedy at Clewe's. John McNeil, sole agent for Sonoma County, Ohm's Sulphur Springs, Sonoma.

BADLY INJURED

Wednesday evening about dusk while Chas. Smith, assistant station agent at Schellville, was riding his wheel at a good rate of speed near Schellville, he ran into a two horse team coming from the opposite direction. Neither party were aware of their danger until the accident had occurred.

Mr. Smith picked himself up and went into the depot when it was seen that he was badly cut about the head and face. Wm. Helberg hitched up his horse and brought the injured man to Dr. Thomson's office. The Doctor properly attended the toiwounds some of which required several stitches.

It is hoped by the young man's many friends that nothing serious will result from the accident. The team was not injured but the bicycle needs considerable repairing.

California Northwestern Railway, North Shore Road
San Francisco, Aug. 28, 1906.
To Agents and all Concerned:

In order that the citizens of Marin, Sonoma, Napa and Mendocino counties may be protected in their lawful rights against negligent or intoxicated chauffeurs, upon complaint from any responsible person or persons against whom complaint has been filed shall not be permitted to go on boats of this company until such complaint has been duly investigated.

NARROW ESCAPE

While ye editor was driving into Glen Ellen last Tuesday evening, on his return trip from Santa Rosa the shaft of the buggy broke frightening the horse which gave a lunge and threw the only occupant of the rig upon the ground and under the wheels.

After being dragged a few rods, ye editor thought best to allow the frightened animal pursue his journey and let go the lines. Picking himself up and walking down to the Mervyn Hotel, Thos. Monohan kindly hitched up his speedy charger and brought the accidentee homewards but was overtaken by Constable Ryan near Boyes Springs who had gone in search of ye editor upon hearing of the runaway. The horse was found near Chauvet's standing in the road, having satisfied his craving for fast traveling, and was brought to town. A kind providence and a \$5000 accident insurance policy prevented any serious results, only a few bruises and cuts to nurse, that's all.

CARDS LANDED HIM

"Trunk Valdez" who is alleged to have burglarized the Star Saloon in this city recently and left suddenly on a bicycle has been arrested in Vallejo. Our alert and efficient Constable, Jos. F. Ryan lost no time when notified of the occurrence in having postal cards printed containing a description of Valdez and sending them to the various officers in adjoining counties.

The cards did the work, for Valdez was arrested upon the description furnished. Constable Ryan was notified and went to Vallejo to identify the man.

It is reported that he had a large collection of gold watches in his possession at the time of arrest.

He now stands charged with burglary and forgery and as a prior conviction stands against him it looks very much like hard times ahead of the fellow.

It is believed that Valdez is an assumed name. Constable Ryan went to Vallejo this morning to bring back the prisoner.

ALL IT WILL COST YOU

to write for our big FREE BICYCLE catalogue showing the most complete line of high-grade BICYCLES, TIRES and SUNDRIES at PRICES below any other manufacturer or dealer in the world.

DO NOT BUY A BICYCLE from any dealer or agent until you have received our complete Free Catalogue illustrating and describing every kind of high-grade and low-grade bicycles, old patterns and latest models, and learn of our remarkable LOW PRICES and wonderful service before you make your purchase.

We need a **FREE** from every town and can get an opportunity to make money to suit you in actual use. Over Seventy-five Thousand pairs sold last year.

DESPERATELY Made in all sizes. It is light and easy riding, very durable and lined inside with a special quality of rubber, which gives it a soft, springy feel, and which allows it to be ridden without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice since they were first put on. They weigh no more than an ordinary tire, the pressure resisting qualities being given by several layers of this specially prepared fabric on the tread. "Holding Back" sensation commonly felt when riding on asphalt or soft roads is overcome by the "Holding Back" tread which prevents air from being squeezed out between the tire and the road thus overcoming all action. The regular price of these tires is \$3.50 per pair, but for advertising purposes we are running a special factory price to the rider of only \$2.50 per pair. All orders shipped same day after receipt. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented. We will allow a 10% discount of 10% per cent (that is making the price \$2.25 per pair) if you send **FULL CASH WITH ORDER**, and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sampson metal puncture closers on full paid orders (these metal puncture closers to be used in case of a seasonal hole or heavy gashes). Also to be returned at OUR expense if for any reason they are not satisfactory on examination. We are perfectly reliable and our word is as good as gold. Ask your Postmaster, Banker, Express or Local Agent or the Editor of the paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look better than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to read us a small trial order at once, because the reliable are few.

COASTER BRAKES, built-up wheels, saddles, pedals, ports and repairs, and everything in the bicycle line are sold by us at half the usual prices charged by dealers and wholesalers. Write for our big BICYCLE catalogue. **DO NOT WAIT** but write us today. **DO NOT THINK OF BUYING** a tire from anyone until you know the new and wonderful tires we are making. It is a real money-maker. Write it NOW.

TEST YOUR SEED CORN.

A Simple Method of Making Sure That It Is All Right.

When we consider that a bushel of seed corn ought to produce 400 bushels of corn, worth from \$130 to \$160, and that there is talk of low vitality and scarcity of good seed in some portions

DEMAND AND SUPPLY.

Cost of War.

The cost of the Spanish and Philippine wars to the United States since 1898 for seven years ending June 30, 1904, has been \$1,000,000,000.

Fishskin Lanterns.

The puffer or swell fish has the power to dislodge itself with air into the shape of a globe. Japanese living in the Hawaiian Islands make of the skin of the big puffer found in Hawaiian waters an odd and grotesque lantern. When the skin of the big puffer has been first removed while it is still soft it is stuffed out to its full size in globe shape and so left to dry. The skin is not much thicker than paper and translucent brown on the upper part and gray below. The fins are preserved and dried sticking out from the fish, the tail being perked up at an angle. A circular opening is made in the back, through which the light can be placed and in which is set horizontally a hoop of wire by which the lantern can be suspended. Such a lantern made of a big puffer's skin may be a foot in diameter crosswise and fifteen inches in length, and what with the head of the fish appearing at one end and the fin projecting at the other and the skin making a very curious object--New York Herald.

The Spartan Japanese Father.

The Spartan character of the Japanese father may be gathered from two facts mentioned by Consul Daigore Goh in the admirable address on family relations in Japan which he delivered before the Japan society. The Japanese child calls its father "Gempu" and its mother "Jibo"--which mean "stiff father" and "benevolent mother"--and Mr. Goh quoted a Japanese boy who classified the Japanese father as one of the "four fearful things of the world--earthquake, thunder, conflagration and father."--London Truth.

Macaroni Verse.

Macaroni verse is verse written in more than one language or in two languages twisted to appear like another. For example, a long poem on wine dating from early in the sixteenth century, begins:

The best tree, if ye take intent,
Enter Jena fructifera.
Is the vine tree by good argument.

Another example of the second kind mentioned is Dean Swift's imitation Latin poem beginning "Mollis abuti, hanc acuti," which in English reads "Molly's a beauty, has an acute eye."

Calcium.

Calcium was first made in minute quantities by Humphry Davy. In the new process chloride of calcium is placed in a receptacle and fused by electrolysis. An iron cathode forms a basis upon which the molten calcium deposits itself, and the once rare metal builds itself up into an irregular rod resembling a cabbage stalk. When the stalk has grown to the right length it is clipped off and dipped in paraffin wax to preserve it from the action of the air.

Three Strange and Remarkable Men.

As Dumas, the grandfather, prided himself more upon his wonderful strength and skill in athletics than his grandfathership, as Dumas the second prided himself more upon his knowledge of cockery than the authorship of "The Three Musketeers," so Dumas the third prided himself more upon his knowledge of art than upon his writing of "La Dame aux Camellias." They were three strange and remarkable men.

At Their Own Expense.

"Do you joke writers ever make jokes at their own expense?"

"For the first few years all our jokes are made that way. After that, if we're lucky, we get paid for 'em."--Cleveland Leader.

The Bargain.

"You ought to take this horse," said the dealer. "He is a bargain."

"Well, then, I don't want him," said the customer. "I want something to drive, and I never could drive a bargain."

The most manifest sign of wisdom is a continual cheerfulness.--Montaigne

Bread Upon the Waters.

When Victor Hugo was in exile in Brussels he asked Rochefort to stand godfather to his son Charles. Rochefort accepted and in looking for a suitable present saw in a curiosity shop window a silver table ornament which attracted him and which he bought, though the price was 35,000 francs. When after 1870 Rochefort was sent to New Caledonia and his property confiscated Victor Hugo sold the ornament for the benefit of Rochefort's family. It turned out that it was the work of Benvenuto Cellini, and it brought in 200,000 francs.

Fortunate Fasts.

A Jewish newspaper tells the story of a rabbi who expounded and interpreted the Jewish law to the faithful observers for a stipend which a junior clerk would scorn. The learned man was asked by a friend how he was getting on. "Slowly," he answered, with a sigh. "If it were not for the numerous fasts which our religion prescribes I am sure my family would die of starvation."

No Cause for Fear.

Husband--That's a foolish habit you women have of carrying your purses in your hands when in the street. Wife--Why is it? Husband--Because a thief could easily snatch them and get away. Wife--Well, if the husbands of other women don't give them any more to put in their purses than you give me to put in mine the thief would starve to death.

Shadow Buff.

To play shadow buff you should fasten a sheet up at one end of the room so that it will hang quite smooth. "Buff," not blinded, seats himself on a low stool, with his face to the sheet, and a table, on which is a lighted candle, is placed about five feet behind him. The rest of the lights in the room should be extinguished. "Buff's" play fellows next pass in succession between the candle and him, distorting their features in as grotesque a manner as possible, hopping, limping and doing everything to make their shadows as unlike their natural looks as possible. "Buff" must try to guess to whom the shadows belong, and if he is correct the player whose shadow he recognizes takes his place. "Buff" is allowed but one guess for each person.
